1. A WARM WELCOME TO THE WORLD OF HOSPITALITY

Welcome to the exciting world of international hospitality! Choosing Les Roches Marbella to pursue your career goals will help you to open doors to a challenging and fast-growing global profession. We invite you to discover our University and the wealth of opportunities we provide our students in their pursuit of becoming future leaders in this dynamic industry.

Since 1995 we have been providing our students with the tools needed to excel as hospitality management professionals around the world. Through our unique craft-based learning approach, rigorous educational methods, and multicultural learning environment we work to instil a sense of excellence in our students that serves as the basis for developing leaders with a solid working knowledge of their profession. Our state-of-the-art campus in one of the most dynamic and relevant areas of concentration of hotels and luxury resorts in Europe, at the foot of the Mediterranean, in the city of Marbella, Spain is home to students from almost 80 countries around the world who all share a common passion for hospitality.

The dynamic and innovative hospitality industry offers exciting employment opportunities for professionals seeking a career in this fascinating international and ever-changing industry.

The Les Roches Marbella Academic Catalogue provides you with an in-depth insight into the academic programs offered which will provide you with a sound academic experience for your future in the international world of hotels and the service industry and progress to leadership positions in the hospitality business.

We take great pride in the accomplishments of our students and look forward to guiding you as a future leader in the exciting world of hospitality.

Mr. Carlos Díez de la Lastra
General Director
Les Roches Marbella Global Hospitality Education
2. STATEMENT OF GENERAL PURPOSES

Les Roches Marbella is a co-educational school offering higher education programs. As an official Branch campus of Les Roches, is accredited by New England Commission of Higher Education (NECHE). Les Roches provides instruction in English to students of any race, nationality, sex, colour, religion or creed who have successfully completed a full secondary school program (for the undergraduate programs) and or university/degree or diploma (for the postgraduate programs).

We expose our students to a broad range of courses covering the inter-related areas of the hospitality industry, by means of theoretical and practical work within the School and by regular periods of internship in recognized hotels, restaurants or related institutions. Students’ intellectual abilities are further developed through the general education component of the undergraduate programs.

Our objective is to train and educate students to a level of all-round competence, in the varied operations of the hospitality industry. Graduates of Les Roches, having developed competence in a range of technical, organizational and administrative skills, will be able to progress through the ranks of the management hierarchy.

We develop students’ abilities to initiate and manage change by confronting them with contemporary issues and challenges that the industry faces today. The international environment at the School promotes awareness and understanding of national and cultural differences and encourages students to work together in a team to improve inter-personal skills. Graduates of Les Roches may therefore embark upon their careers with confidence, armed with knowledge, basic experience and inter-personal skills which allow them to successfully face career challenges.

Currently, with an international faculty and an attractive, up-to-date and well-equipped campus, Les Roches Marbella offers its students an internationally recognized comprehensive education. During their program, students gather all the theoretical and practical knowledge necessary to excel in their profession and will enter the labour market with confidence and experience, which are highly praised by the hospitality industry.

3. MISSION AND VALUES

A. LES ROCHES OVERARCHING MISSION

Les Roches Global Hospitality Education prepares students committed to an international career in the hospitality and service industry for success. Its model hospitality education programs balance theory with practice, independent learning with strong faculty support and mentorship, providing a solid foundation for lifelong learning. Guided by its mission, Les Roches ensures that students acquire personal and professional skills for immediate employment and progression into leadership positions in the industry. Through its global network of campuses and educational sites, the Les Roches model of education consistently complies with high academic standards and integrated resources to grant accessibility to hospitality education throughout the world.

- The values that guide the Les Roches Communities worldwide working toward a common vision are:
  - To practice and teach the Swiss work ethos
  - To demonstrate understanding and respect for cultural differences
  - To develop leadership, teamwork and entrepreneurship
  - To foster a global perspective
  - To act with integrity
  - To engage with industry and educational partners
  - To act responsibly in the development of a sustainable environment
B. CAMPUS MISSION

Our purpose at the Marbella campus is to provide a positive learning environment that assists students’ overall personal development both inside and outside the classroom. As a specialist school in Hotel Management, the essence of Hospitality is about service, often through teamwork and solidarity with others. Students practice this whilst in practical food and beverage classes in each of the school’s food and beverage outlets, and also while on internship in hotels and restaurants. This theme of hospitality is also fostered throughout the other academic programs within the school.

The best encapsulation of what the school is trying to accomplish in fostering the hospitality ethos is written on the plaque outside the school entrance: ‘Les Roches is not just a school; it is a way of life; a spirit that animates daily your life in Marbella; the spirit of team work, the spirit of solidarity, the spirit of service’

In all of our planned curriculum and extra curriculum programs, we aim to present the students with the opportunity to experience the spirit of teamwork, solidarity and service. In this way, the ethos of Hospitality assists overall personal development of the student.

C. GRADUATE SCHOOL MISSION

Building upon the institutional mission, the Graduate School develops international students who have an undergraduate degree, are in mid-career or who are seeking to make an important career change by providing them with an education that is both academically rigorous and has hospitality operations at its core. Our culturally and academically diverse faculty fosters a learning culture that is focused on the quality of teaching and learning through its engagement in applied research and scholarly pursuits which are designed to develop future leaders for a volatile environment. We ensure this through the development of transferable skills, a high level of scholarship and intellectual honesty. We endeavour to create a spirit of enquiry and lifelong learning in our graduates by encouraging their commitment to excellence and the development of sustainable business practices.

D. GENERAL EDUCATION PROGRAM MISSION

The general education program embodies Les Roches’ vision of an educated hospitality graduate. Graduates will understand the world they live in and seek to contribute to society; they will appreciate the humanities and the arts and develop their awareness of how science aids our understanding of our lives and our environment. General education at Les Roches includes not only specific general education courses, but also a set of common skills embedded in courses throughout the curriculum and in internships and experiences gained in the implicit curriculum in campus events and activities. Providing knowledge, skills, experiences, and understanding, the general education program offers an educational foundation that assists graduates to reach senior positions in the hospitality sector.

The mission is to broaden students’ understanding of the arts, sciences, and social sciences and to support the development of individual common skills that enable students to perform effectively in their future careers and function confidently as members of contemporary society.

4. AFFILIATION, ACCREDITATION, RECOGNITION & MEMBERSHIPS

Les Roches Marbella has numerous accreditations and professional memberships in various organizations worldwide, signifying its determination to maintain the highest possible educational standards.

A. NEW ENGLAND COMMISSION OF HIGHER EDUCATION (NECHE)

Les Roches Global Hospitality Education is accredited by the New England Commission of Higher Education (NECHE).

Definition of NECHE’s role and mission:

The New England Commission of Higher Education is an independent, voluntary, non-profit, self-governing organization having as its primary purpose the accreditation of institutions of higher education. Through its evaluation activities, the Commission provides public assurance about the educational quality of those institutions that seek or wish to maintain membership, which is synonymous with accreditation.

Institutions of higher education achieve accreditation from the New England Commission of Higher Education by demonstrating they meet the Commission's Standards for Accreditation and comply with its policies. The Standards for Accreditation establish criteria for institutional quality; in addition, the Commission adopts policies that elucidate the Standards, relate to their application, and otherwise ensure that the Commission is current with respect to changing circumstances in higher education and public expectation. Moreover, the Commission expects affiliated institutions to work toward improving their quality, increasing their effectiveness, and continually striving toward excellence. Its evaluative processes are designed to encourage such improvement.
Each of the nine Standards articulates a dimension of institutional quality. In applying the Standards, the Commission assesses and makes a determination about the effectiveness of the institution as a whole. The institution that meets the Standards:

- has clearly defined purposes appropriate to an institution of higher learning;
- has assembled and organized those resources necessary to achieve its purposes;
- is achieving its purposes;
- has the ability to continue to achieve its purposes.

B. INDUSTRY MEMBERSHIPS

The school, its administration, and Faculty are members of a number of Institutions and National and International Associations:

- World Tourism Organization (UWTTO)
- Council on Hotel Restaurant and Institutional Education - CHRIE - (USA) and EUROCHRIE (Europe)
- Association of Directors of Hotel Schools (EUHOFA)
- World Association for Hospitality and Tourism Training (AMFORHT / WAHTT)
- Asociación Española de Directores de Hotel (AEDH)
- Asociación de Empresarios Hoteleros de la Costa del Sol (AEHCOS)
- International Hotel & Restaurant Association (IHRA)
- International Association of Hospitality Management Schools (IAHMS)
- The Leading Hotel Schools in Europe (EURHODIP)
- European Council on International Schools (ECIS)
- Centro de Iniciativas Turísticas de Marbella (CIT Marbella)
- Confederación Española de Hoteles y Alojamientos Turísticos (CEHAT)
- Member of diverse Chambers of Commerce
- Council of International School (CIS)

C. OTHER RECOGNITIONS

Quality and Environmental Policy

- Corporate Social Responsibility - In 2011 Les Roches Marbella was awarded Corporate Social Responsibility Certification in Management Systems SGE-21 by Forética and Bureau Veritas for complying with international ethical and social responsibility standards. The certification was awarded to Les Roches Marbella again in July 2014. “Conciliatory Company 2016” (“Empresa Conciliadora 2016”) granted by the Delegation of Equity & Diversity of Marbella Town Hall. The award was granted in November 2016.

      2. BTEC Higher National Diploma.
      3. Diploma of a hotel school or other recognized diploma with minimum of 2.5-year programme.

Other Diplomas - Applications from students wishing to transfer from other programs will be considered. Appropriate entry level will be determined according to their qualifications. In order to make a formal academic evaluation, candidates are required to submit an official program outline and transcript of previous studies.

Professional Experience - Please provide copies of work experience certificates in the hotel industry, if applicable.
2. If English is not their mother tongue or if they have not studied the last 3 years in an English-taught school, enclose one of the following:

3.1. TOEFL: minimum score of 80 for the internet-based test. *

3.2. Cambridge:
First Certificate Exam (FCE): Grade A - Please also send the statement of results with your detailed profile.
Cambridge Advanced Exam (CAE): Grade C - Please also send the statement of results

3.3. I.E.L.T.S. Academic Module minimum Overall Band Score of 6.0 and at least 5.5 in each discipline.

All English certificates must have been issued in the last 12 months prior to admission. If on application, your official English test results are not available, applicants will be required to take the Les Roches Marbella English entrance exam, and provide your official English results thereafter.

C. POSTGRADUATE DIPLOMA IN INTERNATIONAL HOSPITALITY MANAGEMENT // POSTGRADUATE EXECUTIVE DIPLOMA IN INTERNATIONAL HOTEL MANAGEMENT

1. Minimum 21 y.o.a. (24 y.o. for Executive Diploma)

2. A completed application form with all pertinent attachments and a non-refundable application fee of 250 €.

3. Must hold a Bachelor’s Degree or Diploma (preferably, but not limited to, in the areas of Tourism, Business Administration, Economics), supported by the university transcripts and copy of university degree obtained. Applications from non-degree candidates can provide evidence of having worked minimum 3 years at management level, may be accepted to enter the Professional Development Diploma Program for PG Executive candidates: must hold a Bachelor’s Degree AND 4 years of proved worked experience in the hotel industry.

4. A reference letter of a professional or academic nature, duly signed and dated.

5. If English is not their mother tongue or if they have not studied the last 3 years in an English-speaking school/university, enclose one of the following:

5.1. TOEFL: minimum score of 525 points for the paper-based test or 70 for the internet-based test.

5.2. Cambridge First Certificate: grade C.

5.3. I.E.L.T.S. Students must apply to take the Academic Module examination and obtain a minimum of 5.0 in each discipline and gain at least an overall band of 5.5.

All English certificates must have been issued in the last 12 months prior to admission. If on application, your official English test results are not available, applicants will be required to take the Les Roches Marbella English entrance exam, and provide your official English results thereafter.

6. Study Plan/Motivation Letter (An essay of motivation describing why the candidate wishes to study at Les Roches Marbella, interest, past experience and future ambitions, approximately 300 words with signature and date).

2 Unless native English speaker or students who have spent at least the last 3 years in full time English education.

D. MASTER’S IN INTERNATIONAL HOTEL MANAGEMENT

1. Age – Minimum aged 21 years old or above.

2. Education or experience – Applicants must hold an accredited bachelor degree in any field. Little experience or no experience required.

3. English Qualifications – If you are not a native English speaker, or if you have not spent the last 3 years in an English-taught school, please enclose one of the following:

3.1 TOEFL: minimum score of 525 points for the paper based test or 70 on the Internet Based Test (IBT).

3.2 Cambridge First Certificate Exam (FCE): Grade C. Please also send the statement of results with your detailed profile.

3.3 IELTS: Academic Module minimum Overall Band Score of 5.5 and min. 5.0 in each part (listening, reading, writing, speaking).

All English certificates must have been issued in the last 12 months prior to admission. If you do not meet the above English language requirements on application or your official English test results are not available, you will be required to take the Les Roches Marbella English entrance exam, and a provisional acceptance letter will be issued so that you can provide your official English results thereafter.
Please note:
The admissions requirements are guidelines and are subject to change at any time.

E. INTENSIVE HOSPITALITY ENGLISH LANGUAGE PROGRAM (IHELP)

The IHELP is only offered in conjunction with one of the Hospitality related programs for candidates who do not have the minimum required English Language entry level for the BBA or PG programs. Entry requirements are the same as for the Hospitality programs except for the English Language certificate. Please refer to the English Language Equivalency table here below.
F. ENGLISH LANGUAGE EQUIVALENCY TABLE

Please find here below the minimum required English Language entry level for each program effective as of September 2018.

G. MISCELLANEOUS

F.1 Students with Learning Differences

Les Roches will assist students with Learning Differences in assessing their potential to enter and succeed at the school. The physical nature of service or kitchen practical arts courses requires students to be able to perform a wide range of duties similar to those performed in the industry. Students with certain learning differences, such as dyslexia, are accommodated whenever possible, additional time to complete examinations and special test conditions. Applicants should indicate clearly such conditions prior to acceptance. Eligibility of acceptance will be analysed accordingly by the school’s supporting personnel. The candidate may write to the School for further information by providing official documentation detailing the diagnosis.

F.2 Progression Policy

Each semester, students are provisionally enrolled for the following semester to ensure the continuity of planning. The actual progression will depend on the end-of-semester status of success. The progression sequence cannot be changed at the discretion of the students. Students exempted from or given authorization to postpone an internship, are accepted into the subsequent semester depending on space availability and approval of the Academic Director and Career Department office. A semester of leave of absence must be approved by the Academic Office. Extra-curricular work experience gained during a leave of absence will not automatically be validated as an internship. The student must assume the resulting administrative procedures, such as: student residency renewal or cancelation, restriction of opportunities in certain regions, new student visa application, private insurance cover, etc. The intention to withdraw, transfer, or postpone the following academic semester, must be expressed in writing to academicsdept@lesroches.es at least 6-8 weeks before the end of the current semester to obtain approval and guidance.

F.3 Withdrawal from the School

Students may withdraw from the school at any time with a written confirmation and School approval; for further details, please refer to the Academic Regulations.

For details regarding the financial policy, please refer to the tuition fees document, also available with the Accounting office on campus.

7. ACADEMIC PROGRAMS

A. BACHELOR OF BUSINESS ADMINISTRATION (HONS) IN GLOBAL HOSPITALITY MANAGEMENT

The Bachelor of Business Administration in Global Hospitality Management is a 7-semester, full-time, degree program, open to students who successfully meet the admission requirements.

The final 2 semesters of study develop strategic and management skills that are both relevant to the industrial setting in which students are destined to work and are a prerequisite for possible postgraduate studies at a later date. There are 122 credits or 125 credits for honors degree in the full 3.5-year program. Three separate specializations / awards are offered to students to allow them to develop areas of special interest.

A.1. Program Objectives

The aim of the BBA program is to prepare students for a range of operational and management careers in the International Tourism and Hospitality Industry. Building on their operational skills and knowledge the program further develops generic management theories and competencies using a range of teaching and learning processes.

Learning outcomes

By the end of the program the students will be able to:

1. Become autonomous learners working towards realizing their personal, professional and academic potential.
2. Appraise confidently the central theories and concepts within the field of Global Hospitality Management.
3. Identify and critically evaluate cross-cultural issues in the international business environment.
4. Develop the intellectual and digital agility required for leadership in a multi-cultural industry.
5. Use effectively the full range of Les Roches undergraduate competencies developed during the program.

D. POSTGRADUATE EXECUTIVE DIPLOMA IN INTERNATIONAL HOTEL MANAGEMENT

E.1 Program description
This executive program provides an opportunity for working professionals to solidify their understanding of hospitality management fundamentals and gain expertise in the concepts that will shape the industry’s future. Through this blended (hybrid) postgraduate program, current industry professionals will have the flexibility to combine their studies and existing career.

Providing exclusive networking events and activities with senior managers, students will benefit from their extensive industry insight, knowledge and experience.

Program Objective
The Postgraduate Diploma in International Hotel Management – Executive Program will explore more managerial perspectives of the hotel industry and less operations, providing the student with the required tools to manage a department or a hotel.

Learning outcomes
By the end of the course, students will have mastered universal business skills and leave with an innovative vision of leadership, resource management and decision making, to help them reach the top in hospitality management.

E. POSTGRADUATE DIPLOMA IN MARKETING MANAGEMENT FOR LUXURY TOURISM

This program has been designed to last a maximum of one year (including intraining) combining both academic and practical experiences. The program consists on 7 academic modules delivered in six months in campus, and an internship period of 6 months.

E.1 Program Objective
The Postgraduate program in Marketing Management for Luxury Tourism is designed to provide graduates, professionals and directors with an expert perspective required for this global and dynamic luxury tourism environment. Understanding the impact of new technologies and new trends becomes critical for effectively doing so but also understanding the new role of the top traveler when deciding touristic destinations and experiences. Additionally, students will receive a well formed perspective of the luxury market, delivered by top experts of the luxury industry, by learning the triggers and drivers that most impact this market on the up. In order to lead marketing projects and strategies in the future, this program focuses on the specific knowledge and competences aimed at luxury segments, exclusive services; premium products and reputable brands.

Learning outcomes
1. To demonstrate understanding of the luxury tourism industry.
2. To explore new marketing tools, trends and technologies effectively.
3. To be able to define a competent Marketing strategy for a luxury brand.
4. To demonstrate competence in researching relevant data and evaluating Marketing strategies.

G. INTENSIVE HOSPITALITY ENGLISH LANGUAGE PROGRAMMES (IHELP)

These programs prepare students who lack the formal English entry standards required for entry into the hospitality programs at Les Roches. Both programs focus on Intensive English learning in small groups and include aspects of Hospitality and Tourism.

Program Objectives

The aim of the Intensive Hospitality English programs is to provide students with relevant skills in English language, comprehension, listening and speaking for entry into any of our programs. It also aims to introduce students to hospitality; raising cultural awareness in preparation for further studies at Les Roches.

Learning outcomes

By the end of the program students will be able to:

1. Write papers with the necessary skills to achieve accuracy.
2. Express themselves orally with confidence.
3. Understand reading texts and recognize different approaches to writing.
4. Understand the general meaning and key information in spoken contexts.
5. Show an awareness of a variety of cultural perspectives.
Program Content

Course Name

English for Hospitality
Listening & Speaking
Reading & Writing
Hospitality Projects
English for Academic Study
Culture & Tourism

H. GENERAL EDUCATION

To broaden students’ understanding of the arts, sciences, social sciences, and to support the development of individual common skills which will enable them to perform effectively in their future career and also function confidently as members of a contemporary society.

Program Objectives

This mission can be further expressed in these goals:

1. To provide an introduction to the arts and humanities, sciences, mathematics, and social sciences.
2. To foster individual development.
3. To develop cultural awareness and understanding.
4. To develop skill in critical thinking.
5. To foster understanding of the roles and responsibilities of citizenship in the global community.
6. To motivate and enable students to be lifelong learners, capable of adapting to the changing demands of work and society.

By the end of the program, the student will be able to:

1. Use the English language fluently and accurately and communicate effectively.
2. Understand and use the skills of information literacy: conduct inquiries and research, reflect critically on the resulting information, and use it appropriately.
3. Relate theory to practice.
4. Understand the principles, processes, and structures of science and apply scientific methodologies.
5. Understand and use a foreign language in written and spoken contexts.
6. Demonstrate respect for contemporary cultures and languages other than one’s own.
7. Interpret contemporary issues in relation to their historical perspectives.
8. Respond critically to works in the arts and humanities.
9. Examine social and political issues within global perspectives.
10. Be aware of and reflect on personal development.

8. COURSE DESCRIPTIONS

A. BACHELOR OF BUSINESS ADMINISTRATION (HONS) IN GLOBAL HOSPITALITY MANAGEMENT

BBA 1

Gourmet Experiences:

- **Fine Dining- Kitchen Immersion**
  The aim of this course is to build on an A La Carte and Table D'Hot service techniques. Successful students improve their practical skills progressively and individually to achieve the course objectives. Students preview the assignment and subject matter before class, so that they can actively participate in, and learn from discussions and solving problems. Asking questions in class, if needed.

- **Fine Dining - Service Immersion**
  Fine dining offers students foundation level skills and knowledge to operate in upscale dining environment. Students are prepared to work effectively and efficiently in teams to provide timely and appropriate food and beverage service. Demonstrations, simulations and the practical activities which will be performed by the students, will familiarize them with all aspects of classical service techniques. This program will prepare them for the hospitality industry.

- **Gastro Dining - Kitchen**
  The course offers the student basic skill development in order to prepare hot and cold international "tapas". Students will develop skill in all major cooking methods using proper hygiene standards, energy conservation and waste management. The student will learn to appreciate quality and gain an understanding of variety and food presentation. The course is designed for students to work in teams to produce quality in small food portion in an effective and efficient way. Students are exposed to "tapas bar" service. The practical will develop the students' creativity in small food presentation. Gastro Dining Service & Oenology.

- **Gastro Dining – Service & Oenology**
  Gastro dining and Oenology offers students foundation level skills and knowledge to operate in upscale dining environment. Students are prepared to work effectively and efficiently in teams to provide timely and appropriate food and beverage service. Demonstrations, simulations and the practical activities which will be performed by the students, will familiarize them with all aspects of Modern fusion service techniques. This program will prepare them for the hospitality industry. The course explains and examines the theoretical and practical aspects of the wine industry and operations. The student will acquire knowledge on wine culture and wine producing regions.

- **Resort Buffet Operation – Service**
  Students are prepared to work effectively and efficiently in teams to provide timely and appropriate buffet service/operation. This program will prepare them for the "realities" of industry. Furthermore, practical work will foster and instil skills in interpersonal communication, organization of work, and personal presentation. Buffet operations will not only develop technical skill but also develop in students respect for procedures and instruction and will encourage them to develop their sense of responsibility, self-discipline and leadership.

- **Resort Buffet Operation – Kitchen**
  The course is designed for students to work in teams as well as individual to strengthen their managerial skills, to produce quality food in an effective and efficient way. Students are exposed to the main food concepts in the production of food ranging from “modern free flow concept which includes production, as well as buffet style presentation. Planning and supervisory skills are developed through the division of work as well as the efficient use of time management. Students will be placed in managerial positions within the kitchen framework to plan, coordinate and delegate tasks to their colleagues.

- **Patisserie & Bakery**
  This course is designed to give students an understanding of pastry and bakery operations. Students will learn to follow recipes and understand the need to be attentive to the sights, sounds and smells of the pastry and bakery kitchen. Practical classes will develop understanding of ingredients, equipment and machinery, basic techniques, physical and chemical reactions during processing. Through demonstration, briefings, group work and individual assessments during practical work, students will develop self-sufficiency, communication skills, creativity and team spirit.

- **Environmental Waste Management**
  This course is designed to ensure that students develop an understanding for the importance of the stewarding function within a food & beverage production area. The student will develop skills that will assist them in selecting equipment and materials to work effectively. The student will examine cleanliness and food hygiene. The students will analyse waste
removal, cleaning schedules, supplies and contract cleaning. Food hygiene exposes the students to the importance of correct food handling by understanding microbiologically systems. Practical and theoretical knowledge will underpin safety and hygiene routines in work.

F&B Trends:

- **Mixology & Bar Operations**
  The course is designed to build in the student an awareness of the opportunities and service style within a bar concept. Within an environment for responsible serving of alcohol, students will be introduced to mixing techniques. Various beverage trends, controls and bar psychology will be analysed.

- **Café Bistro Operations – Service**
  Students are prepared to work effectively and efficiently in teams to provide timely and appropriate bistro service/operation. This program will prepare them for the “realities” of industry. Furthermore, practical work will foster and instil skills in interpersonal communication, organization of work, and personal presentation. Bistro operations will not only develop technical skill but also develop in students respect for procedures and instruction and will encourage them to develop their sense of responsibility, self-discipline and leadership.

- **Café Bistro Operations – Kitchen**
  The course offers the student basic skill development in order to prepare bistro food. Students will develop skills in all major cooking methods using proper hygiene standards, energy conservation and waste management. The course is designed for students to work both in teams and individually to produce quality bistro food in an effective and efficient way. Students are exposed to the main food concepts in the production of food ranging from “modern free flow concepts”, “Fusion cuisine” to “a la carte”, and “fast food”. Planning and supervisory skills are developed through the division of work. The practical class activities will foster skills in prioritizing, time management and will develop the students’ creativity.

- **Trends for Foodies**
  The course offers the student basic skill development to prepare cold starters, salad buffets, and ethnic food. Students will develop skills in cooking methods and understanding preparation methods for cold and hot dishes, following correct hygiene standards, energy conservation and waste management. The course is designed for students to work both in teams and individually to produce quality food in an effective and efficient way. Includes an analysis of the new food trends, the latest food service concepts, and different types of convenience foods offered in the market.

Rooms Division & Hotel Operations:

- **Front Office Operations**
  The main components that make up this course are: Front-Office operations and applied Front-Office techniques. The programme covers all aspects of the Guest Cycle in relation to the Front-Office, including the understanding and usage of Property Management Systems (Opera). The course will show students the functions and duties of Front-Office staff and will stress the importance of good communication skills. In addition, students will have the opportunity to develop practical knowledge and skills required for operation. These skills will be developed in the Front-Office Demo Room.

- **Housekeeping Techniques**
  The course covers all aspects of Housekeeping Operations in resort hotels. The course will help students to develop practical knowledge and skills required by operational staff in Housekeeping departments. The course also underlines the importance of butler service in resort properties. These skills will be developed in the classroom and practical operations.

- **Lodging Concepts**
  The aim of this course is to help students’ understanding of the origins, developments and the required attitude for a successful service delivery in the Hospitality sector. It will cover two fields of study; the first will distinguish the various company styles and explore the world of hotels. The second will allow the students to have a better understanding of the organization of a hotel and its departments.

- **Concierge & Guest Relations**
  The aim of this course is to help students understand the importance of guest satisfaction in the hotel industry, and the relevance of Guest Relations and Concierge Departments in this achievement. The students will identify their main roles and
duties within the hotel organization, and will recognize and develop, with some practical experience, the functions carried out by Concierge Staff and Guest Relations Agents.

Principles of Resorts: Operations & Communication

- **Introduction to the World of Resorts**
  This course will cover two fields of study; the first part seeks to provide students with a background understanding of the economic, social and environmental impacts of resort tourism at the emerging and traditional destinations. The second part will allow the students to have a better understanding of how a resort is developed, organized and operated based on its type and location, and considering the needs and expectations of customers. The international trends in the resort industry will be covered as well.

- **Business English (elective)**
  The purpose of the course is to prepare students to use international business English in their future careers. Polite and professional forms are stressed. Students will develop useful skills such as writing formal letters, e-mails, memos and marketing flyers by expanding business vocabulary. Grammar revision will also be included.

- **Business Communication (elective)**
  Students learn to perform well in an academic and professional environment and to successfully go through the stages of an effective writing process. Emphasis is placed on skills such as identifying an audience, brainstorming, critically reviewing and summarising information, structuring and developing an argument, referencing sources, avoiding plagiarism, proofreading and editing a final draft.

- **Business Mathematics**
  In order for the student to be successful in a business environment a good level of mathematical competence is required. This course is designed to improve students’ mathematical skills and introduce them to quantitative reasoning processes as they relate to the hospitality industry and the wider business world. Essential functions and numerical relationships are reviewed and applied through exercise work and video tutorials.

- **Foreign Language**
  This course introduces basic foreign language emphasizing oral proficiency and communication skills. Students will participate in basic conversations on familiar subjects, interacting in a simple way, provided the other person talks slowly and clearly. They will be able to understand short texts and instructions. Students will be able to engage in a brief conversation where they can apply their knowledge to a hospitality environment. Students will reach a level equivalent to some of the elements of Level A1 of the Common European Framework of Languages (CEFR).

**BBA 3**

**Hospitality Financial Accounting**
Financial understanding is an essential element in any manager’s range of required skills. This course presents basic financial accounting concepts and explains how they apply to the hospitality industry. Students are introduced to basic accounting practices, including major classification of accounts, concepts and the production of financial statements. Through exercises, students practice writing income and cash-flow statements, and balance sheets. Financial statements from hospitality operations are introduced and various forms of financial analyses are included demonstrating how they serve the manager to assist in the business decision-making process.

**Communicating Effectively (levels 1, 2)**
Writing is both a skill and a process of discovery. This course treats writing as a purposeful communicative act involving a writer, an audience and a text, extending and developing skills necessary to enhance individual student’s communicative effectiveness, particularly in the workplace and for further academic study. Students develop effective reading, writing, speaking and listening skills with a focus on: reading for gist/extracting specific information, paraphrasing, summarizing, quoting, preliminary research methods and referencing techniques. Accuracy and improvement of these skills are developed via the creation of associated written and visual documents.

**Marketing for the Hospitality Industry**
This course introduces the key theories and practices in marketing management. It examines marketing as a strategic business function. Through an analysis of the business environment, the course considers products and services that might be profitably offered to hospitality customers. The course deals with the concepts of segmentation, targeting and positioning. It introduces
branding and consumer buying behaviour. The components of the marketing mix are discussed and applied to the global hospitality and tourism world.

Fundamentals of Data Analysis & Visualization
In order for students to be successful in a business environment, mathematical competencies are required. This course is designed to improve mathematical skills and introduce quantitative reasoning processes related to the hospitality industry and the wider business world. Essential functions and numerical relationships are reviewed and applied through extensive exercise work. This course prepares students to achieve a professional level of competence in using computer spreadsheets.

Managing Diversity in the Global Workplace
This course will highlight the importance of diversity in global organizations and emphasize leadership. Best practices of human resources administration in the global workplace, including recruitment, selection, performance management and different motivation practices will be covered. Students will explore areas such as power politics, decision making, problem solving and other organizational relations. Applying theories, setting and designing objectives, leading meetings, providing effective feedback, promoting motivation, identifying leadership styles are essential elements of this course.

Principles of Sustainability and Innovation
Sustainability is these days of the key elements to success in the Hospitality Industry. The entire hospitality industry is developing sustainable plans to decrease their operation costs, to improve their marketing performance, to enhance customer’s experience and to comply with the new and stricter environmental regulations.
In this course you will learn that applying innovative actions and technological advances is possible to gain a competitive advantage in the globalize hospitality marketplace.

BBA 4

Leading Teams to Success
In this course, students will develop fundamental concepts of managing effective teams. It will include topics such as team building, teamwork tools, team dynamics and characteristics of mature teams, with a particular focus on improving working relationships and organizational effectiveness. Students will develop their social intelligence, and learn the fundamental concepts of networking, coaching and mentoring, which will be useful for a global work setting.

Digital Marketing & Sales
This course is designed to give students the required skills and knowledge to understand internet-based marketing distribution channels for the hospitality industry. Students will explore applications of E-commerce as well as related ideas and concepts. It introduces the concept of digital sales and digital channel management. Community management is also explored as well as new components in the social media landscape. The effects of digital disruption are discussed both from the consumer and the product perspective, and extended to all service providers.

Food & Beverage Management
This course distinguishes restaurant and institutional catering concepts from hotel food and beverage management. It covers managerial, organizational, operational and financial aspects of modern food and beverage operations. The course includes current trends, service recovery and quality management and current technologies used in the food and beverage industry. Labour cost control systems are explored and feasibility studies are interpreted on an introductory basis. Food and beverage operating budgets are reviewed. The course places an emphasis on the banqueting and catering market.

Fundamentals of Economics
This course introduces economic concepts that are fundamental to understand the issues faced by business firms. Supply, demand and elasticity are introduced, as well as long run and short run costs. Different forms of competition found in the hospitality industry are discussed. The Business Cycle and the phenomena of unemployment and inflation are examined. Macroeconomic challenges will be discussed such as world debt and inequality. The role of money, fiscal and monetary policy, Central Banking decisions and monetary systems are reviewed and the impact of currency fluctuations in the hospitality industry is emphasized.

Hospitality Managerial Accounting
Financial skills and knowledge are vital tools for managers who wish to have an impact on their organization’s success. The ability to understand financial reports, analyse the financial health of a company, forecast and budget will allow informed managerial and investment decisions. This course focuses on the use of accounting information for management decision-making and control in hospitality settings. Students will gain an understanding of cost behaviour, profitability and investment analysis, budget setting, flexible budgeting, pricing, cash flow and performance measurement.
Rooms Inventory & Control Management
This course prepares the students to manage the rooms division within a hospitality environment. Inventory and cost control concepts will be explored and studied and students will develop the managerial and leadership vision to run this department and to lead teams. The students will learn about maximizing hotel revenue and productivity, using different pricing strategies and cost calculation methods, and keeping high quality standards based on the guest requirements.

Hospitality Facilities Management
Hospitality Facilities Management is a multi-disciplinary role which integrates physical assets, people and technology ensuring functionality of the infrastructure to increase user safety and satisfaction. This course provides an introduction to the key facilities issues from a management point of view. It incorporates sustainability as a means of decreasing operational costs, increasing organization profitability and workplace

BBA 6

Customer Relationship Management (CRM)
This course examines customer relationship management (CRM) and its application in marketing, sales, and service. Effective CRM strategies help companies align business processes with customer-centric strategies using people, technology, and knowledge. Companies strive to use CRM to optimize the identification, acquisition, growth and retention of desired customers to gain competitive advantage and maximize profit. Emphasis is placed on both conceptual knowledge and hands-on learning using a leading CRM tool. The course will also address relationship marketing with organizations and consumers/households (B2C).

Revenue & Pricing Management
Students will learn to design an effective revenue and pricing strategy by identifying challenges and developing solutions to generate profits using a revenue simulation tool. They will investigate the evolution of pricing and the changing mind-set of the consumer in the contemporary distribution landscape both online and offline. They will critically evaluate current trends in hospitality to embrace the skills necessary for successful revenue managers in today’s hotels and restaurants.

Hospitality Financial Management
In this course students will examine the role of accounting within a business with a focus on sources of external finance (borrowing), taxation and bankruptcy costs in terms of the main types of business organizations such as sole proprietors, partnerships, private limited companies and public limited companies. Students will also identify the risk and return associated with different levels of financial leverage (borrowing) and operational leverage (investment in automation). Additionally, students will learn the main investment appraisal techniques, allowing them to evaluate proposed investments in large projects such as a new restaurant or hotel from a number of financial perspectives.

Models for Problem Solving and Decision Making
This course is designed to expand the students’ skills in building and using models to analyse and control their business situations, whether it is for a cost / profit analysis or assigning tasks to people. Many problems with solutions are used that are related to the hospitality industry such as workforce scheduling, production planning, task assignment, transportation, capital budgeting and other decision analyses. The models explored in the course are based on the use of Microsoft Excel and Solver.

People and Talent Management
This course will integrate and further develop human resources strategies such as compensation and benefits, learning and development, and human resources planning. Students will learn the theory and practice of negotiation and conflict resolution. They will explore trends such as workforce diversity in an international work environment. Students will be encouraged to reflect upon their own people and talent management skills in managing teams. Emphasis is placed on the importance of implementation and application of human resources strategies to the workplace.

Data Analytics for Business Optimisation
The course will equip students with the skills required to understand and interpret quantitative data. The course takes a holistic view of how statistical data analytics have developed as a means for hotel managers to make decisions. Statistical terminology and techniques, inferential statistics and probability theory are covered. Descriptive and predictive analytics, including different forecasting techniques are analysed and applied to the hospitality industry. Students will sharpen their cognitive capacity to deal with numbers and statistical techniques by examining and practicing how quantitative data analytics impact managerial judgments.

Research Methods (elective)
This course provides undergraduate students with a background in research methods and strategies for planning, designing, evaluating and applying business and management research in the hospitality and tourism industry. The course highlights the
characteristics and limitations of different research methods as well as the different approaches of doing research. Overall, the course enhances students’ research skills and abilities as well as assists them in the preparation of any research task they may engage in. The ability to critically reflect upon existing research will also be developed. At the end of the course, students should be able to conduct independent research projects.

Sustainable Development in a Globalized World (elective)
The course introduces the concept of Sustainability as an alternative in the societal, economic, and environmental path poised to adjust the current prioritization of economic growth as the fundamental organizing principle. Sustainability implies a multi-disciplinary approach that balances economic welfare, providing equitable opportunities for the current society without depriving the future one, while respecting and protecting the viability of the planet’s natural resources and systems. The course moves beyond an understanding of the problems, offering a new and different vision of the world that will change the way students think about their lives and motivate them to become part of the solution. The course will provide an overview into the role of international organizations’ strategies, such as OECD, United Nations or ISO among others, focusing on Logic Framework Approach (LFA) as a methodology for identifying, planning, executing and controlling those aspects leading to a more sustainable development.

BBA 7

A.1 Digital Marketing Strategies (specialisation)

Marketing 4.0
This course is designed to develop a critical understanding of the formulation and implementation of integrated marketing communication plans and associated activities. The course draws on case study materials which enables students to appreciate and manage marketing communications within a variety of different contexts. Students will analyse the processes, issues and vocabulary associated with integrated marketing communications in order to make a contribution within their working environment both for internal and external audiences. This course will also explore hospitality on-line communication and social media optimization.

Innovative Sales Strategies
The goal of this course is to examine the elements of an effective sales force as a key component of the organization’s total marketing effort. The course will extend students’ expertise in marketing reach and its potential impact in achieving company overarching goals. The course addresses the sales process, the relationship between sales and marketing, and the analysis of common hospitality sales force structures. Customer relationship management (CRM) together with the use of technology to improve sales force effectiveness are explored. Challenges surrounding the recruiting, managing, evaluating, and developing of salespeople in a hospitality organization are considered.

Digital Marketing and Content Creation
This course focuses on the creative and innovative use of digital marketing models, tools and content used in the hospitality industry. Exploring the customer’s digital experience will enable the student to design and visualize the digital journey, to create digital content for marketing and advertising and to optimize for web and mobile experiences. Working in teams, students will develop digital marketing campaigns they would encounter in the industry and will produce real-world digital results.

Brand Management
In this course, students examine how a favourable brand and memorable brand experiences can influence a firm’s ability to withstand competitive pressures and thrive in dynamic market conditions. They will study brand management from the consumer perspective to highlight the importance of customer perceptions in bringing brands to life and the role of brand knowledge in building brand equity. Students will become acquainted with innovative frameworks, concepts and tools that have been adopted across industries and around the globe to build lucrative brand franchises. This specialized course looks particularly at the hospitality sector focusing on successful hospitality brands.

Professional Development & Networking (elective)
This course is focused on the development of the personal and professional characteristics that a future manager should have to be successful in business. The course runs from self-awareness to personality traits that have been demonstrated to have an impact on the professional career. We will emphasize the importance of knowing our personal strengths and weaknesses to become a better professional, by working out those aspects that can be enhanced and those that must be sorted out. The overall aim of this course is, in sum, for the student to work deeply on the foundations for professional development and effective networking as future leaders in business settings.

Responsible Global Citizen and Socially Responsible Organizations (elective)
The course provides a foundational perspective for social responsibility in relationship to individuals, organizations, and the community. Our global future depends on grasping the need for a transition towards a sustainable society searching for the
balance between social, environmental and business aspects of life. The course will provide an overview of Corporate Social Responsibility as an alternative principle in the business environment. Students will be able to identify and implement some good strategic practices and gain the skills to analyze, develop, and make recommendations for implementing strategic CSR in organizations or consumers wanting to behave responsibly.

Managing Change & Digital Transformation (elective)
In this course, students will meet the challenges of digital transformation to ensure long-term success as a leader in a primarily digital business world. The course examines the process of change management and innovation as fundamental principles of business transformation in today’s organizations and its economic risks, integrating them into a framework of traditional and modern management methods. Additionally, the students will explore the importance of managing change and repositioning organizations in the uptake of new technologies through an ongoing dynamic where change may be planned and managed.

Dissertation (compulsory for honors degree)
Students are required to produce a dissertation of 10,000 words. Prerequisites to this course include the submission of a dissertation research proposal which normally comes as the final project of the Research Methods course in BBA6. After the proposal is submitted and approved, a supervisor is allocated to guide students in developing their proposal into a dissertation. Although supervised, students are mainly working independently, managing their time and applying the research skills acquired in the Research Methods course. The data used to produce the dissertation are a combination of primary and secondary research. The course provides a mechanism for individual growth and learning covering areas of research relevant to hospitality, tourism and business studies.

A.2 Resort Development and Management (specialisation)

Project Management in Resort Properties
This course will introduce the stages of project management. Project management is an intrinsic characteristic of contemporary society’s demand for developing new methods of management. Its main purpose is to help managers to accomplish specific goals by 1) being responsive to the client and the environment; 2) identifying and correcting problems in early stages; 3) making timely decisions about conflicting goals; 4) ensuring the optimization of separate tasks and overall performance. These stages will then be applied to the development of a resort property. The running of each of the smaller businesses present in a resort will also be analysed.

Introduction to Golf Club Management
First of all the Course’s students will be introduced to the Golf Industry and to the different types of Golf Courses. After this General Overview the course will study the different Golf Facilities and its Operational function and the Philosophy of Golf Management. The course will also look to the golfer as a customer according to the type of Operation. It will pay attention to membership as a way of return on investment in a Golf Development. In a second stage we will learn how a successful golf club requires knowledgeable and well-trained staff. This subject will focus on the professional application of human resource management practices as they pertain to the golf industry. The golf course design, agronomy and other technical aspects will be revised. The course will study the different profit centres in a Golf Club and the Facilities Management. Including some ideas about finance in golf courses.

Spa, Health & Wellness in Resorts
This course will provide the students with an introduction to Spa Resorts. Students will have the opportunity of learning how Spa and Wellness concepts have been developed over the years focusing in three areas: Sales and Marketing, Operations, and financial management. In this way the student will be able to identify and understand concepts and techniques involved in the development, management and marketing of Spa and Wellness facilities and businesses. The concept of the spa vacation is studied in depth, which will allow students having followed this course to develop managerial tools specifically designed for this kind of economic activity. The design of alternative healing methods, wellness programs integrating body and mind, stress management and other beauty and health programs will be considered from a commercial point of view, so that students will be able to produce marketing campaigns adapted to meet consumer needs, personnel required, safety, and ethical issues regarding spas are an important part of the course.

Resort Management and Operations
This course aims to the understanding of how a resort is developed and how it operates once it is open. A resort is the result of a complex group of smaller businesses and the running of each one of these businesses will depend on the purpose of the resort defined in the developing process. The student will learn aspects related to the characteristics of managing such a complex product and more specifically its special considerations in planning and development, the importance of the master plan for the future planning and management, the operations itself of the resort as a whole as well as resort marketing and finance. Any other relevant business that becomes important due to international trends in the resort industry will be covered as well.
Professional Development & Networking (elective)
This course is focused on the development of the personal and professional characteristics that a future manager should have to be successful in business. The course runs from self-awareness to personality traits that have been demonstrated to have an impact on the professional career. We will emphasize the importance of knowing our personal strengths and weaknesses to become a better professional, by working out those aspects that can be enhanced and those that must be sorted out. The overall aim of this course is, in sum, for the student to work deeply on the foundations for professional development and effective networking as future leaders in business settings.

Responsible Global Citizen and Socially Responsible Organizations (elective)
The course provides a foundational perspective for social responsibility in relationship to individuals, organizations, and the community. Our global future depends on grasping the need for a transition towards a sustainable society searching for the balance between social, environmental and business aspects of life. The course will provide an overview of Corporate Social Responsibility as an alternative principle in the business environment.
Students will be able to identify and implement some good strategic practices and gain the skills to analyze, develop, and make recommendations for implementing strategic CSR in organizations or consumers wanting to behave responsibly.

Managing Change & Digital Transformation (elective)
In this course, students will meet the challenges of digital transformation to ensure long-term success as a leader in a primarily digital business world. The course examines the process of change management and innovation as fundamental principles of business transformation in today’s organizations and its economic risks, integrating them into a framework of traditional and modern management methods. Additionally, the students will explore the importance of managing change and repositioning organizations in the uptake of new technologies through an ongoing dynamic where change may be planned and managed.

Dissertation (compulsory for honors degree)
Students are required to produce a dissertation of 10,000 words. Prerequisites to this course include the submission of a dissertation research proposal which normally comes as the final project of the Research Methods course in BBA6. After the proposal is submitted and approved, a supervisor is allocated to guide students in developing their proposal into a dissertation.

Although supervised, students are mainly working independently, managing their time and applying the research skills acquired in the Research Methods course. The data used to produce the dissertation are a combination of primary and secondary research. The course provides a mechanism for individual growth and learning covering areas of research relevant to hospitality, tourism and business studies.

A.3 Entrepreneurship & Business Development (specialisation)

SME Business Planning
The purpose of this course is to explain how marketing, HR and finance subjects are linked together and have to be considered as a whole at the moment to prepare the business plan. Any decision over a single parameter of the project will have incidences over the whole structure. Students will learn how to present a Business Plan on a professional way, integrating financial, marketing and HR aspects, caring the presentation and in order to convince investors and/or credit-men. We will consider how to take profit from market changes and opportunities, how to grow using simple and cheap tools like networking, social networking and lobbying. E. MASTER’S IN INTERNATIONAL HOTEL MANAGEMENT

MIHM 1

Food & Beverage practical: Service + Kitchen operation

Kitchen: The course offers students foundation knowledge to prepare food using all major cooking methods and applying proper hygiene, energy conservation and wastage prevention. Students will learn to appreciate quality and gain a significant understanding of raw materials. The course is designed for students to work in teams or individually to produce quality food in an effective and efficient way as well as having a hands-on approach to learn workflow management in a kitchen.

Service: This module prepares students to work effectively and efficiently within a team to provide timely basic banquet food and beverages service. In ‘a La Carte’ operations setting the students are prepared to provide a high standard of fine dining service, working independently within a restaurant environment. In addition, the students are shown the art of flamé, filleting, gueridon service and mixology, which will prepare them for any type of restaurant situation within the industry. In this type of scenario, they will understand the importance of workload management in the service department.

Rooms Division Practical

Five main components make up this course – Rooms Division Operations (Front Office and Housekeeping), customer care, applied front office techniques, housekeeping technical operations and Opera PMS. The programme covers all aspects of the ‘Guest Cycle’ in relation to the Rooms Division department. The course considers the role of customer care within the hotel, and particularly within the Rooms Division environment. The importance of close communication and cooperation between the two sub-departments is stressed. In addition, students will have the opportunity to develop practical knowledge and skills required of operational staff in Front Office PMS and Housekeeping. These skills will be developed in the classroom, the practical reception area and housekeeping operations area.

F&B Operation Management

This course will highlight that today F&B Departments are going through a concept turnover. There is an overwhelming competitiveness in this business; the costs involved are high and the profit margins low in comparison. This course introduces the students to the duties of an F&B Manager, both financial and operational aspects. The course stresses the importance of Total Quality Management in today’s fast track, changing world, and the importance of labour cost control and staff motivation to achieve the ultimate success of any F&B operation. The students will become familiar with Profit and Loss Statements, and how to interpret them. The course also includes a view into the practical management aspects within the school’s F&B Department.

Finance and Performance Management for Hotels

This course covers principles and practices of financial accounting such as GAAP, transaction analysis, adjustments, inventory analysis, cost and other accounting concepts related to the preparation and analysis of the main financial statements. This hospitality finance course will introduce and develop the major analytical skills hospitality managers and business operators require in terms of facilitating effective financial planning, control and decision making in a hospitality accounting context. Consequently, this course integrates the major elements of financial and management accounting pertaining to a hotel/restaurant environment.

Room Division Operation Management

This course prepares the student for the organisational and strategic management of a modern international Rooms Division organisation. Advanced managerial concepts concerning planning, staffing, and cost and revenue control of Rooms Division operations will be discussed to provide a foundation for the new manager.

Design and Facilities Management

Given that hotel facilities are costly, complex, and unique in many ways, managing hotel operations in a responsible manner requires the application of specific knowledge and skill. This course introduces the key issues involved in hotel operations management, incorporating contemporary issues of environmental protection and sustainability. Illustrated with examples drawn from the industry, the course will prepare students to deal with facilities related questions and problems as they arise in practice. Whilst focusing upon the hospitality industry, knowledge gained will prove applicable to many similar micro-organisational settings.

Global People management in hotel context

This course will focus on understanding the importance of the employment cycle within the hotel, and the different variables (f.e: technology, employment law, discrimination, health and safety, ...) affecting a smooth run of it. Recruitment and selection, as a key function within the Human Resources environment, will be an important area of study on this course in order to allow the students to understand the importance of having a proactive, creative and professional approach when dealing with hiring matters. It is evident that positive motivation at work provides individuals with a unique opportunity to excel in performance within the hotel industry. For that, the organization must implement strategically designed plans for example in compensation and benefits, career development, internal recruitment, and any other HR areas. Controlling the Human Resources budget will be
another area of importance within the course, as all tasks delivered and developed within Human Resources will have to be budgeted and controlled for a successful evaluation of its outcomes.

Service Marketing in a Digital Age
This course offers a thorough grounding in Services Marketing with a particular focus on hotels. It aims to address the various opportunities service-oriented hospitality companies need to adopt in their approach to marketing planning in the digital world. Starting from an understanding of the major differences between service and product marketing, the course examines the impact of the digital age shaping current strategies. Students will also be prepared to deal with the disruptive digital environment and practice to research current trends to identify opportunities and design sound business practice to the customer online.

**MIHM 2**

Entrepreneurship and Business Modelling for Hotels
The course aims to develop an understanding of the process of entrepreneurship and the business environment in which the process takes place. Building on a number of previously and simultaneously taught units, this course will provide students with the foundations for acquiring knowledge and skills to enable them to make a planned decision to proceed and develop their own ventures. Through business modelling, value enhancing decision will enable students to be more entrepreneurial within existing organizations and perform well when studying alternatives or leading a project.

Strategic Hotel Management in a Global Environment
The students will be introduced to identifying strategic challenges in the global hotel industry. Tools for evaluating business environments and making rational strategic decisions are introduced. This course provides an overview of the current strategic orientations of hospitality and hotel firms, and of the consequences of major trends on the future of the industry.

Event Design and Management
Events Management is a Project Management led course integrating the disciplines of Food and Beverage operations management, financial management, human resources management, marketing and logistics. Students will be assessed before, during and after the event on their planning, managing and evaluation of a live event presented during the semester to a range of internal and external customers.

Sustainability in Business Development
The course provides a foundational perspective for social responsibility in relationship to individuals, organizations, and the community. Our global future depends on grasping the need for a transition towards a sustainable society searching for the balance between social, environmental and business aspects of life. The course will provide an overview of Corporate Social Responsibility (CSR) as an alternative principle in the business environment. Students will be able to identify and implement some good strategic practices and gain the skills to analyze, develop, and make recommendations for implementing strategic CSR in organizations or consumers wanting to behave responsibly.

Revenue and Asset Management for Hotels
Yield and revenue Management strategy can be considered critical for hotel operations. This subject provides students an overview of revenue management for the hotel industry in terms of a process created to increase revenue. Demand, reservation scheduling and variable pricing are important variables to be understood by the student. Additionally, the students will be given a foundation in strategies and models such as: pricing models, forecasting, group management and overbooking or pricing strategy among others, strongly considering assets and its management as a critical function for hotel business development.

Applied Project
The student will learn how to put academic research together with their specific business curiosity in order to create a capstone project, supervised by relevant faculty to the area of knowledge.
F. INTENSIVE HOSPITALITY ENGLISH LANGUAGE PROGRAMME (IHELP)

ENG E131 English Skills
This course aims to equip students with the general language skills required at an Upper-Intermediate level. Students’ grammar and vocabulary skills are developed through all the skills (reading, listening, speaking and writing) and the course prepares students to express themselves more confidently and accurately in various situations they are likely to come across in the real world.

ENG E132 English for Hospitality
This course aims to reinforce the language skills developed in the English Skills 1 course and will give students more teaching and practice of these skills related to various contexts of Hospitality. Students will work on role plays, professional letter writing, speaking activities, article writing, reading hospitality related materials.

ENG E133 Listening & Speaking
This course develops students’ listening strategies and speaking skills in general and academic contexts. Language structures are reviewed and reinforced. Students will study longer listening extracts and react to these orally. Students will role play, make short presentations and develop confidence in speaking. Students will practice how to put forward their own point of view with evidence – encouraging the development of their critical skills.

ENG E134 Reading & Writing
This course develops students’ reading strategies and writing skills in general and academic contexts. Language structures are reviewed and reinforced. Students will study longer reading texts and react to these in an appropriate written format. Students will practice how to put forward their own point of view with evidence – encouraging the development of their critical skills.

ENG E136 Hospitality Projects
This course provides the opportunity for students to activate their language and use of hospitality terminology in context. Students are required to use the target language within various hospitality situations (relating to restaurants and hotels). They will consolidate their use of the target language in various activities - encouraging teamwork and group projects.

ENG E137 English for Academic Study
This course provides the students with the core academic skills and language needed for further study. Students will listen to lecture extracts and take notes, develop reading strategies to understand longer academic texts and write academic papers (describing graphs, a process, data, presenting an opinion in an academic context, structuring an academic essay, process writing, summarising, paraphrasing and reviewing their own written work).

ENG E140 Culture & Tourism
In this course, tourism and the reasons why people travel are explored and students will consider ways of defining culture and how we relate to our own culture and that of others. The course seeks to develop awareness of cultural differences and encourages understanding of these differences and acceptance of others. Students will relate this understanding to tourism and their perceptions of the needs of customers. The course also introduces basic research activities and how to make formal presentations which will develop skills needed for further academic study.

G. GENERAL EDUCATION

Arts & Humanities

Business English (elective)
The purpose of the course is to prepare students to use international business English in their future careers. Polite and professional forms are stressed. Students will develop useful skills such as writing formal letters, e-mails, memos and marketing flyers by expanding business vocabulary. Grammar revision will also be included.

Business Communication (elective)
Students learn to perform well in an academic and professional environment and to successfully go through the stages of an effective writing process. Emphasis is placed on skills such as identifying an audience, brainstorming, critically reviewing and summarising information, structuring and developing an argument, referencing sources, avoiding plagiarism, proofreading and editing a final draft.
Communicating Effectively (as per tested level)  
Writing is both a skill and a process of discovery. This course treats writing as a purposeful communicative act involving a writer, an audience and a text, extending and developing skills necessary to enhance individual student’s communicative effectiveness, particularly in the workplace and for further academic study. Students develop effective reading, writing, speaking and listening skills with a focus on: reading for gist/extracting specific information, paraphrasing, summarizing, quoting, preliminary research methods and referencing techniques. Accuracy and improvement of these skills are developed via the creation of associated written and visual documents.

Foreign Language (level 1)  
This course introduces basic foreign language emphasizing oral proficiency and communication skills. Students will participate in basic conversations on familiar subjects, provided the other person speaks slowly and clearly and will interact in a simple way. They will be able to understand short texts and instructions. Students will be able to engage in a brief conversation where they can apply their knowledge to a hospitality environment. Students will reach a level equivalent to some of the elements of Level A1 of the Common European Framework of Languages (CEFR).

Foreign Language (level 2)  
This course reinforces and extends the language learned in level 1, reviewing learned content and introducing new structures. Class work emphasizes development of confidence in speaking. A wide variety of vocabulary will be introduced to enable students to interact in a range of everyday situations, including hospitality contexts. Students will achieve further competence in the language at level A1 and begin to develop some elements of level A2 of the Common European Framework of Languages (CEFR).

Foreign Language (level 3)  
This course reviews and extends contents and structures from level 2 and gives students the possibility to talk about their habits and their experiences. Students will also develop skills for making simple exchanges of information in formal and informal situations, including hospitality contexts. This course will enable students to reach competence in language equivalent to elements of the A2 level of the Common European Framework for languages (CEFR).

Foreign Language (level 4)  
This course reviews and extends language from level 3, introducing language structure in more depth, emphasizing and developing confidence in writing and oral expression. Students will acquire the skills to talk about a variety of events and express their opinions using current media. Discussion will be encouraged on themes agreed upon by the group. Students continue to develop language skills at level A2 and will move towards level B1 of the CEFR (Common European Framework of Reference for Languages).

Math, Science & Technology

Business Mathematics  
In order for the student to be successful in a business environment a good level of mathematical competence is required. This course is designed to improve students’ mathematical skills and introduce them to quantitative reasoning processes as they relate to the hospitality industry and the wider business world. Essential functions and numerical relationships are reviewed and applied through exercise work and video tutorials.

Fundamentals of Data Analysis & Visualization  
In order for students to be successful in a business environment, mathematical competencies are required. This course is designed to improve mathematical skills and introduce quantitative reasoning processes related to the hospitality industry and the wider business world. Essential functions and numerical relationships are reviewed and applied through extensive exercise work. This course prepares students to achieve a professional level of competence in using computer spreadsheets.

Data Analytics for Business Optimisation  
The course will equip students with the skills required to understand and interpret quantitative data. The course takes a holistic view of how statistical data analytics have developed as a means for hotel managers to make decisions. Statistical terminology and techniques, inferential statistics and probability theory are covered. Descriptive and predictive analytics, including different forecasting techniques are analysed and applied to the hospitality industry. Students will sharpen their cognitive capacity to deal with numbers and statistical techniques by examining and practicing how quantitative data analytics impact managerial judgments.

Models for Problem Solving and Decision Making  
This course is designed to expand the students’ skills in building and using models to analyse and control their business situations, whether it is for a cost / profit analysis or assigning tasks to people. Many problems with solutions are used that are
related to the hospitality industry such as workforce scheduling, production planning, task assignment, transportation, capital budgeting and other decision analyses. The models explored in the course are based on the use of Microsoft Excel and Solver.

Social Sciences

Fundamentals of Economics
This course introduces economic concepts that are fundamental to understand the issues faced by business firms. Supply, demand and elasticity are introduced, as well as long run and short run costs. Different forms of competition found in the hospitality industry are discussed. The Business Cycle and the phenomena of unemployment and inflation are examined. Macroeconomic challenges will be discussed such as world debt and inequality. The role of money, fiscal and monetary policy, Central Banking decisions and monetary systems are reviewed and the impact of currency fluctuations in the hospitality industry is emphasized.

Sustainable Development in a Globalized World (elective)
The course introduces the concept of Sustainability as an alternative in the societal, economic, and environmental path poised to adjust the current prioritization of economic growth as the fundamental organizing principle. Sustainability implies a multidisciplinary approach that balances economic welfare, providing equitable opportunities for the current society without depriving the future one, while respecting and protecting the viability of the planet’s natural resources and systems. The course moves beyond an understanding of the problems, offering a new and different vision of the world that will change the way students think about their lives and motivate them to become part of the solution. The course will provide an overview into the role of international organizations’ strategies, such as OECD, United Nations or ISO among others, focusing on Logic Framework Approach (LFA) as a methodology for identifying, planning, executing and controlling those aspects leading to a more sustainable development.

Research Methods
This course provides undergraduate students with a background in research methods and strategies for planning, designing, evaluating and applying business and management research in the hospitality and tourism industry. The course highlights the characteristics and limitations of different research methods as well as the different approaches of doing research. Overall, the course enhances students’ research skills and abilities as well as assists them in the preparation of any research task they may engage in. The ability to critically reflect upon existing research will also be developed. At the end of the course, students should be able to conduct independent research projects.

Creativity and Innovation (elective)
This course is aimed to leverage student’s creativity skills and draw the attention to the concept of innovation, especially in a context of a start-up organization. It integrates the concept of Innovation as a process to enhance the way we see things in improving or creating new products, services and businesses. The student will gain the necessary confidence and skills to achieve their set goals and aims.

Protocol & Etiquette
This course explains various aspects of protocol and etiquette in official and unofficial events. The correct way of addressing protocol and etiquette in public, in office, while attending or when organizing an event, will be discussed.

Crisis Management
The Crisis Management practical course is based on a hands-on approach through a simulation exercise. In order to be as close to reality as possible, the Crisotech team have developed a fictional hotel chain, Starwhite, with hotels in different countries. These hotels face real-life crisis situations (food poisoning, tsunami, threat to reputation), which the participants, playing members of the hotels or the corporate management, will have to manage themselves. They will be dealing with a great number of injects through a dedicated online system, and will have to answer to everything in a timely and professional manner. This exercise has been developed by a team of crisis management professionals, with a very large cumulated experience in corporate as well as public crisis management. After the end of the exercise, in the debriefing session the participants will reflect on their performance, both individually and as a group, and learn more about the crisis management skills they have used, while pointing at ways to improve in the future.
9. CREDIT EQUIVALENCE

Les Roches Global Hospitality Education is an institution accredited by the New England Commission of Higher Education (NECHE).

Consequently, the programs offered by our institution follow the American credit system as defined by the U.S. Secretary of Education and stated by NECHE. In this system:

- 1 (one) US credit typically corresponds to 1 hour of instruction and a minimum of 2 (two) hours of out of class student work each week for 15 weeks.
- 1 (one) US credit corresponds therefore to a total workload of approximately 45 (forty-five) hours.
- A 3 (three) US credits course typically represents a workload of 45 (forty-five) hours of instruction and 90 (ninety) hours of out of the class work for a total workload of 135 (one hundred and thirty-five) hours.

European Credit Transfer System (ECTS) is the credit system for higher education adopted by all European countries part of the Bologna process. In the ECTS system, 1 (one) credit typically corresponds to 25 (twenty-five) to 30 (thirty) hours of work (European Commission, 2009). A 3 (three) ECTS course would therefore represent a total workload of 75 (seventy-five) to 90 (ninety) hours.

The equivalence adopted by Les Roches Global Hospitality Education is that 1 (one) US credit corresponds to 1.8 (one point eight) ECTS and is recommended to be applied for credit recognition by institutions using the ECTS credit system.
